THE PUBLIC LANDS.

All the domain over which the jurisdiction of the United States extends is the property of the people, otherwise of the Government, where patents have not been issued to individuals from the proper officers appointed for that purpose and have the management of that business in charge. Where, as in this Territory, the public lands have not been open for preemption or sale, the sole title that any man can have to any portion of the soil is simply a possessory title, the only right is what is known as the squatter's right.

Such is the situation in Utah to-day. No one man has any legal claim upon more than one hundred and sixty acres of ground in this Territory, and to make that claim valid he must have lived upon it five years, or must have declared an intention to do so by making such place his home. All attempts which do not include this condition precedent, all this thing of individuals or so-called corporations running ditches around or through the public lands and then claiming vast tracts according to their caprice, or of Territorial Legislative Assemblies granting away unbounded possessions in the national domain, especially where such grants are made deliberately for the creation of oppressive monopolies, all such frauds upon the people of the United States, who own the public lands, we say are utterly void, they amount to nothing absolutely, and will never be recognized as valid.

It is not desired nor designed by the Government that a few rich men, or corporations, shall monopolize the best portion of our public lands for speculation or other purposes. To prevent their aggregation in the hands of a wealthy few Congress has, from time to time, legislated with the express purpose of breaking up such combinations and to secure homes to actual settlers on the liberal terms of the Government, and not to trust the well-being of our citizen pioneers to the tender mercies of soulless landed monopolies. The maximum amount, which a man could hold according to law, has long been fixed at one hundred and sixty acres, until the land is placed in market, when the actual settler has the privilege of purchase, at fixed rates, before all comers.

Now, the question of titles to lands in this Territory is one of great importance, on which many interests of great moment depend, and therefore one which must soon assume such proportions as will command the attention of all concerned. We have refrained hitherto from any public discussion of its merits for reasons of our own, but as the public enemy has taken the initiative in declaring hostilities and begun to threaten in advance, we deem it time that silence on our part should be broken and all persons be duly informed of their rights in the premises.

While Congress was still in session and any overt act, or unruly language even, on the part of our Mormon lambs, would have endangered the inauguration of prompt measures for their discomfiture and to shear them of their unwholesome power, why the tongues of their pulpits oracles were tied and nothing could be more proper and circumspect than their demeanor. They were on their good behavior and the claws of the "Lion" were sedulously kept concealed. But no sooner does the news flash along the wires, that this danger is past, than the whole scene changes, the muzzle is removed, the leash is out, and the whole pack are straightway at their old tricks again, hissed on, as usual, by the arch-offender himself.

This whole question is perfectly well understood, and the efforts which have been made for years, and more especially of late, to gobble up the whole country, under one pretext or another, to prevent the settlement of Gentiles in Utah, the proscription of this class of our citizens, the frequent attempts of intimidation—are all part and parcel of the same unlawful policy, and are perfectly well understood. If the fact was not before sufficiently clear that such has long been the well settled purpose, the favorite scheme on which all others must depend, the late Tabernacle manifesto would serve to demonstrate it. But every one has seen the motive all along in sending out from Salt Lake ready made settlements for desirable situations in this Territory wherever there was a remote chance for an anti-Mormon community, to find a footing and create centers of future trouble to the Saints.

This is all perfectly correct and unobjectionable. We find no fault with any for extending in laudable enterprise, or securing any proper end by legitimate means. But there has been another process going on, along with and under cover of the other, against which we demur most decidedly. It is the process of appropriating vast tracts of the most valuable lands for the benefit of those in power in the church, to the exclusion and detriment of those equally entitled outside. We are willing that even the Men of Things should have just his share of the public domain, but not one foot more. And let him mark well what we tell him now—that if he or his colleagues and their posterity, lawful or unlawful, get more it will be after a severe struggle, in and out of the courts,

than any to which they have yet been subjected. His dopes may fill his coffers with titbits if they please, but the soil cannot thus be given away.

The first step should be to have the affidavits of good, responsible men, as to his recent language before a vast assembly of Mormons, sent forward and placed as matter of record in the hands of those who will use them in another Congress, and if the threat be made, the purpose of which we all understand, is carried out, that those who have the power to punish crime may know where belongs the responsibility. Then let all, who desire to do so, locate their homes on lands not occupied according to law and see who will dispossess them or do them violence. Let none be intimidated by empty threats, intended only to intimidate; but remember that being forcibly dispossessed of their claims, in no wise invalidates them where properly founded. Meantime we counsel the immediate formation of a Squatters' League for mutual protection, to locate homes in good faith, according to law, and defend them to the last extremity. We want it distinctly understood that we advise no interference with any just claim, but we do affirm that the claims made by certain of the Mormon leaders to leagues of arable lands in this valley, as well as to vast tracts of timberlands in the adjacent cañons, are unlawful and unjust; and can only be maintained by force. We ask nothing but our rights as American citizens, and then we mean to have at whatever hazard. The minions of Polygamy exult, but we assure them that the strife is not abandoned, and the end is not yet.

EGAN CAÑON AND ITS SURROUNDINGS.—A correspondent of the Reese River *Reveille*, who is giving that paper some notes of a trip from Reese River to the Mississippi, thus speaks of Egan Cañon, a noted station on the Overland Mail route:

On the morning of July 4th, the nineteenth anniversary of the establishment of the great American Republic, we left camp at eight A. M. and arrived at Egan Cañon at one P. M., to enable us to participate in any demonstration which the citizens of that place might be engaged in on so important a holiday. The road was mountainous and without water, but was not devoid of interest from the varying features of the country generally, a pleasant wooded valley, or a graceful hill, or a cedar-lined avenue, always eliciting our admiration. The approach to Egan Cañon is over a level plain about one-half a mile wide. The village houses are built principally of adobe. There are fine ledges of slate roofing running through the village. There are three mills there—the Dougherty mill, of five stamps, which has been worked to advantage heretofore upon ore from the Gilligan lode; the Rodgers & Fuller mill, of four stamps, which was about running upon Hope ore, and a New York company's mill, in process of erection. The machinery for the latter was shipped overland from the Missouri, and got shipwrecked amid plains, but is all recoverable, and, I understand, without any payment of salvage. This mill is being erected at Steptoe, a settlement at the foot of the cañon, one mile from Egan. There are only about fifty persons in the cañon at present, prominent among whom is old Uncle Billy Rodgers, whose patriotism is all aglow at the ripe age of seventy-two, and who celebrated the day as best he could by "taking sugar with his." We are surprised to find the place in a perfect apathy, not even a national flag flying. The location of Egan is very choice, and if the silver mines continue as rich as they are now developed, the place will be one of importance. At present it is a conceded there is but one mineral lode there, the Hope and Gilligan being the same, with a fair prospect of costly litigation to give itself notoriety. There has been discovered a mining district to the east of Egan, near Antelope Springs, named the Kinsale District, which we were told promises well from the number, size and wealth of its mineral lodes; this district is not peopled at present. Egan has suffered in a diminution of its population by the stopping of work on the Dougherty mill, and the emigration to Pahrump, one hundred and fifty miles south, whither Egan is the nearest point of travel.

From California.

(From the Enterprise.)
San Francisco, August 3.
Gold in New York yesterday was 148 @ 148 1/2; sterling, 107 1/2. Immense quantities of United States bonds going forward to Europe render sterling almost unobtainable. Greenbacks to-day are slightly depressed by unfounded rumor of war between Russia and Prussia; 72, selling at 72 1/2, dull.

Advices from Sidney quote California flour at \$10.10 per ton.
Henry B. Taylor took out a warrant this afternoon for the arrest of Horace Hawes, on the charge of firing a pistol at him yesterday, on Washington street.
The Administration Union Convention to-day chose F. B. Murdoch of Santa Clara, President. A. J. Gunnison, John Center, O. P. Sutton and Wm. H. Culver, of San Francisco; Judge Heister of Santa Clara; B. P. Koser of Santa Cruz, and G. W. Hager of the Third Congressional District, Vice Presidents. J. N. Thorne of San Francisco and H. Leffingwell of Alameda, Secretaries. It passed resolutions endorsing the Administration of President Johnson, and elected Cornelius Cole and Montgomery Blair for the First District; J. H. Riley and J. W. Whitcox for the Second District; J. W. Simonton and J. Leese for the Third District; Senator Doolittle, Rob. J. Walker, General Dix and General Slocum, at large, delegates to the Philadelphia Convention. M. S. Whiting, A. J. Gunnison, I. N. Thorne, William H. Culver, D. O. Brown of San Francisco; Charles McClay of Santa Clara, and G. W. Hager of the Third District, State Central Committee. The Committee organized by electing M. S. Whiting, President; I. N. Thorne, Secretary; Wm. H. Culver, Treasurer.

The losses by the fire this morning will not exceed \$20,000.
Samuel Brannan was assaulted at the Third District Registry Office this evening by William Fairman, who is a bolting candidate from the Union Convention. Turner Cowing, who had been keeping

his wife's body in the house for a year, was yesterday ousted from the premises by a mob of about 200 men, who carried off his furniture, moved into the house, and set fire to it. The mob was quite an excitement, and was in the matter, and the immediate neighborhood in an uproar.

The Union Convention is nominating School Directors now. An attempt will be made before adjournment to endorse the resolutions of the State Central Committee, but its success is doubtful. The Democratic Convention is having a jolly excitement over something, but is sitting with closed doors.

Oroville, August 3.
Jacob Smith, charged with the murder of W. H. Hastings, Supervisor of Butte county, on the 7th of October last, was to-day found guilty of murder in the first degree.

BY PACIFIC TELEGRAPH.
(RECEIVED AT THE DAILY UNION-VEDETTE.)

Election Returns from Kentucky.
Affairs in Europe.
The Philadelphia Convention.

Re-Districting of Military Commands.
General Terry to Take Command of a New Department on the Plains.
General Pope to Command the Department of the Columbia.

Louisville, Aug. 9.
Sixty-nine counties gave Duval, for Clerk of the Court of Appeals, 39,000 majority. Only five counties give Hobson a majority.

A special election will shortly be held for Member of Congress in this District. Rousseau declines reelection, as he intends to locate permanently in Washington.

Chicago, Aug. 9.
Gov. Wells, of Louisiana, publishes a long letter addressed to the President on the subject of the Convention and late riot. He declares that the riot was long since planned by Mayor Monroe, and had its motive in the same rebellious feeling which plunged the country into civil war, and which flame is not yet extinguished in the breasts of the former slave-holding aristocracy.

The relations between the governments of Austria and Italy are assuming a more threatening attitude.

The ship Danube, from Bristol for the United States, has been at sea for several days, and were saved and brought to this port by the ship Compeer from Mobile.

New York, August 9.
The Commercial reports the money market unchanged and says there is a decided scarcity of five-twenty, and the purchase of about a quarter million for shipment abroad, was sufficient to put up the price to 4 1/2; gold continues firm, apparently under operation of the clique, who are to carry out the scheme for producing an extreme scarcity of coin for delivery.

Adices from Frankfurt, of the 5th ult., state that the Senate and other municipal bodies of that city have assembled in order to draw up a petition, which M. D. Rothchild was instructed to present to the King of Prussia. The Prussian Commissioner, however, refused the necessary permission. Rothchild has been hanged himself out of despair, because of the manner in which the Prussian have acted toward the city and himself. All the bankers have held a meeting, at which it was decided that if violence of any kind were reported, they would suspend payment in Germany and abroad. The second contribution, levied by Prussia, is 25,000,000 marks. The Prussian and plate have been removed to a very large extent. There has been a run on the banks, which has officers encouraged. The principle newspapers have been suppressed. Troops are quartered on the residents. Mr. Murphy, the American Consul, is issuing protection papers, exempting Americans from the Prussian tax. The sudden growth of the American population is astonishing.

Berlin, July 26.
The official Gazette to-day justifies the course pursued by Prussia in levying a war contribution of 25,000,000 marks upon the residents of Frankfurt. The following amount of systematic hostility was shown toward Prussia by the Government of Frankfurt: The toleration by the latter of articles published in the Frankfurt press which were insulting to the King of Prussia; the violation of treaties; the damage done to Prussian property, and Frankfurt's participation in the war carried on by an Austrian coalition against Prussia.

Washington, Aug. 9.
The Southern delegations to Philadelphia are constantly arriving.

It seems to be understood that George Ashmun will be President of the Convention. The opinion also prevails that Vallandigham and other Northern delegates who during the war refused to support the Government, will be excluded. Pendleton announces that he will not attend the Convention.

General Baird is relieved of his command at New Orleans and General Stoneman succeeds him.
General Hunter has been placed on the retired list.
Gen. Humphreys is appointed Chief of the Engineer Corps, Price Defield.
The Secretary of War announces a entire re-districting of military commands, as follows:
Department of the East, Gen. Meade, Headquarters at Philadelphia; Department of the Lakes, Gen. Hooker, Headquarters at Detroit, Michigan; Department of the Potomac, Gen. Schofield, Headquarters at Richmond, Va.; Department of the South, Gen. Sykes, Headquarters at Charleston, S. C.; Department of Tennessee, Gen. Thomas, Headquarters at Nashville; Department of the Gulf, Gen. Sheridan, Headquarters at New Orleans; Department of Arkansas, Gen. Ord, Headquarters at Little Rock; Department of the Missouri, Gen. Hancock, Headquarters at Leavenworth; Department of the Platte, P. St. George Cooke, Headquarters at Omaha; Department of California, Gen. McDowell, Headquarters at San Francisco; Department of the Columbia, Gen. Pope, Headquarters at Portland, Oregon; Gen. A. H. Terry will report to Lieut. Gen. Sherman, to take command of a new department to be made on the Plains, according to Gen. Sherman's judgment, Gen. Sherman has general command over the Departments of Arkansas, Missouri, Platte, Tennessee and the Territories, and Gen. Halleck has command of the Military Division of the Pacific, as heretofore.

Chicago, Aug. 10.
The Saratoga Convention yesterday appointed a full delegation to the Philadelphia Convention, including John A. Dix, Henry J. Raymond, Chas. J. Mayers, H. L. Comstock, S. J. Elden, Wm. Kelly, Uram Deas and Sanford E. Church.

The Michigan Democratic State Committee have appointed a full delegation to the Philadelphia Convention, including Chas. E. Stewart, A. C. Baldwin, D. F. Wells, etc.
The Michigan National Union Convention also appointed a full delegation, including Jas. F. Joy, General G. A. Custer, General A. S. Williams, General C. O. Loomis and General A. Stevens.

A Cincinnati special says there were 49 deaths by cholera in that city yesterday. The cholera seems to be abating at the West.

From Nevada.

We have seen or heard the following named candidates for the United States Senate: D. E. Long, D. E. Ashley, J. Langley of San Francisco; James A. Banks, Thomas Files, B. C. Williams—Gold Hill News.

The Menkes talks of making an overland trip—arriving in Virginia City in September. She is an honorary member of Young America, Empire Co. No. 2. That she is the best Maseppa now on the boards is an indisputable and naked fact.—*Idid.*

In order to render "The Pacific Coast Directory" more complete and valuable to the public, the publisher, Mr. H. G. Langley of San Francisco, has recently added to his first design Salt Lake City, Utah, Vancouver Island and British Columbia. This has necessarily occasioned some delay. The work, however, will be published on or about the 1st of September.—*Enterprise.*

BODENBURG & KARR
JUN-14-06

The Daily Union Bulletin

Local and Miscellaneous.

To ADVERTISERS.—The Bulletin is the pioneer daily newspaper of Utah. Its immense circulation every morning, and its city of circulation in Idaho, (to which it gives the telegraphic Bulletin) make it the most advantageous medium for advertising in these two central territories.

O. F. GOLDEN, traveling solicitor, for Bulletin subscriptions and advertisements, through the Pacific States and Territories.

BIRTH.—In this city, on the 10th, the wife of P. R. Long, of a daughter.

We are indebted to Mr. Fox, of the Excelsior Gardens, for a basket of fine apples.

Sex notice of stray found by F. B. Gilbert.

PICNIC PARTY.—The Sunday School picnic, Thursday, was brought to an appropriate and agreeable close by a very pleasant, social party in the evening, at Independence Hall.

The President is said to have determined to remove Isaac Newton, the present Commissioner of Agriculture, and appoint John Deere, the Superintendent of the Government Printing Office.

ECONOMICAL MACHINES.—An exchange says that in Australia means have been invented by which quartz can be reduced and the gold extracted at an expense of fifty cents per ton.

WM. Reynolds, Esq., started yesterday to put the new Pahranagat Stage Line in working order. The stock and coaches preceded him two or three days, and, as there are no new stations to be built, the coaches will be running on time through to the Mines within a week or ten days.

INDIANS.—Washie and several of his Indian band have been in town during the last two days, selling their furs, purchasing goods, &c. They are the finest looking and most quiet and intelligent Indians we have ever met.

POST OFFICE.—We are authorized by Mr. Stein to state that to-day the Post Office will be removed to the new building on East Temple Street, consequently the office will be closed at five o'clock this evening, and to-morrow the mail will be delivered from the new place, which is one door south of the Globe Restaurant.

PAHRANAGAT MAIL.—We are informed by Judge A. G. Lawrence, Special Mail Agent, that all letters and papers intended for the Pahranagat Mines should be directed to "Lawrence, Pahranagat Lake Mining District, Nevada," and they will be sent via the new stage line from this city to Pahranagat.

A COSTLY VICE.—According to the Internal Revenue statistics, there is now annually consumed in the United States, about 45,000,000 gallons of spirituous liquors—equal to 1 1/2 gallons for every man, woman and child. The wholesale price of the commonest article of whiskey is now in the neighborhood of \$2.25 per gallon.

From a table prepared in the War Department it appears that Kansas lost one in five of her soldiers, the highest ratio on the list. Vermont and Iowa are next—one in six, while the lowest is California—one in twenty. Kansas troops, during the battle days of the Republic, were ever in the front.

COAL.—There is no institution so much needed, or that would pay so good a profit, in this city, as a coal-yard. Last winter our citizens paid \$75 per ton for coal, when it could have been brought here from the Weber for half that price during the summer. Why don't some of our business men start one?

NEW STOCK.—Yesterday Messrs. Gilbert & Sons received a train of forty-three wagons, loaded with two hundred thousand pounds of merchandise for their store in this city. This is the second train received by this enterprising firm this season, and a third one is now on its way from the river. The quantity of goods sold by this firm would be creditable to the leading houses of cities of twice the size of Salt Lake. The large store addition to their store is fast approaching completion, and when it is ready for use they will have one of the largest and finest stores on the Plains.

ANOTHER INSPECTOR COMING.—General Basling, inspector of the quartermaster's department, says the Denver News, of the 3d inst., left Washington on the 23d ult., for a general inspection of the depots and posts on the Plains, and throughout the Department of the Pacific. His trip will embrace Kansas, Colorado, Utah, Nebraska, Arizona, Montana, California, Oregon and Washington. This will occupy several months.

THE LEAVENWORTH BULLETIN, publishes the following credited to the Free Press: The City Council, at its meeting night before last, determined to have Sixth street graded from Commercial to Kansas Avenue. We understand that all lot owners in the vicinity are to be compelled to fill up the ravine that runs through them.

The Lake Indian Trouble—Further Particulars.

From the Nevada Item, Aug. 11.

The substance of the following dispatch we published yesterday, and this gives the particulars more fully: A white man, near Bear River, the night of the 5th, made an Indian drunk, causing said Indian to become hostile. He ran into the station at Diamond Springs, wounded stock tender with an arrow, then proceeded east to where Thomas Froese's train was encamped, wounded French slightly, and severely wounded one of his men. It is reported that the Third Mountain District force have been burned, 25 men killed, several trains burned, and part of the Government herd stolen. The latter is not official, but believed to be true. Everybody is making preparations for an Indian war.

Indians run off a Government herd at Laramie, and a Frenchman's herd near there.

Nevada Items.

The Gold Hill News says the population of Nevada State will be trebled within a year.

About twenty-five buildings are going up on the burnt district at Dayton.

The crops along Reese river are being garnered in a superb manner.

They got up an impromptu celebration in Virginia City over the successful laying of the sub-marine cable.

The Storey County jail at Virginia City still continues to be empty.

Gen. Cradlebaugh returned from Salt Lake sound and hearty, and passed through Gold Hill on his way to his home at Carson City. The General speaks very flatteringly of appearances at Salt Lake.

California Items.

Gen. Rosencrans is in Tuolumne county examining the gold mines.

It is said that Gov. Low will not call an extra session of the Legislature this year.

The Last Chance Copper mine in Nevada county shows better indications now than ever, and it is thought that profitable copper mines will yet be opened in that county.

The Napa Reporter, on the authority of a "reliable gentleman," avers that the thermometer at St. Helena did stand at 140° in the shade on one day of last week. Our correspondent's assertion to the contrary notwithstanding.

A SELL.—An individual has been palming himself off on the people of Sonoma as Col. Walsh, the Fenian orator. He evinced a great capacity for drinks, after which some of the citizens smelt a rat. The Colonel's excursion to Sonoma finally wound up on his being arrested for horse stealing.

SOLPHUR.—The Napa County (Cal.) Reporter of July 26th says:

Some time in May about ten of our citizens formed a company for the purpose of prospecting the Coast Range mountains for minerals, and employed the well-known prospector, Seth Dunham, of Lake county, for that purpose. Dunham and his partner (Jones) soon discovered, near Locustome Valley, a very large deposit of crude sulphur, nearly pure. The company has prospected the mine, and becoming satisfied of its extensiveness, have entered into contract and shipment of the ore on a large scale. The facilities for working are said to be excellent, and its location much more advantageous as regards the distance from navigation, of any similar mine in the State, being at least one day nearer to San Francisco than the mine belonging to the berax company. Sterling, Cornwall and Pendegast are the trustees of the company, and from them we learn that they will win a few weeks, commence regular and large shipments.

ARTHUR H. PATTERSON, alias "Billy Patterson," sutler's clerk, attempted to assassinate Bvt. Major L. M. Kellogg, 18th U. S. Infantry, commanding post of Fort Morgan, Colorado, (Junction) on the 1st inst.
